

# QSITE GOLD COAST PROFESSIONAL LEARNING TERM 3, 2020

## Scratch 3.0 in the Classroom

Scratch is a programming language and online community where you can create your own interactive stories, games, and animations. It can help young people learn to think creatively, reason systematically and work collaboratively – essential skills for life in the 21<sup>st</sup> century.

Best of all, Scratch is free and a great way of introducing coding into your classroom. It can be used as a flexible, open-ended learning tool to meet the requirements of the Australian Curriculum and some C2C units and assessments.

This 3-hour workshop aims to assist beginner and intermediate teachers to use Scratch in their teaching.

### WHEN

Saturday 1<sup>st</sup> August  
9:00am to 12:30pm

### WHERE

Coombah State School  
164-172 Oxley Drive, Coombabah QLD 4216
